

**Role:** Managing Consultant

### **Who is Timera Energy?**

- Timera Energy is a specialist energy consultancy providing market, valuation and risk advisory services in European power & gas and global LNG markets.
- We have evolved rapidly since 2011 to become one of Europe's most respected energy consultancies, with a strong client base of investors & owners of flexible energy assets.

### **Who are we looking for?**

- We are looking for a Manager / Senior Manager to join our growing team.
- You will have responsibility for the delivery of client work, managing project teams, maintaining client relationships and working with our senior management team to develop the company.
- You will also show leadership in evolving Timera's IP, knowledge base & analytical capability.
- The successful candidate will have:
  - a strong analytical background
  - extensive practical energy industry commercial experience
  - a proven consulting track record
  - strong numerical & verbal/written communication skills
  - degree level in economics, maths, operations research or a related analytical field
  - 8-10+ years in a commercial, risk &/or consultancy role
  - Current eligibility to work in UK/EU

### **What are we offering?**

- We offer very competitive packages, which include a company margin sharing scheme which allows direct participation in company value growth.
- We offer significantly more flexibility and autonomy than other companies. This covers e.g. location, work hours & remuneration structure.
- Timera has an open, innovative & entrepreneurial environment and we work on a variety of stimulating analytical challenges across the rapidly evolving energy industry.

### **Applications**
